Teide / Masca

Spectacular volcanic landscape with lava streams, caves and volcanoes

Tenerife

- Teide - Spain's highest mountain
- UNESCO World Heritage
- Masca village

The Teide National Park with its spectacular unique landscape is the result of volcanism, which has also shaped the world's third-highest island volcano with an altitude of 3718 m - Pico del Teide. An impressive lunar landscape consisting of volcanic peaks, lava flows and abundant flora and fauna - with about 3 million tourists a year, it is also the most visited national park in Spain and Europe. The visit to the Teide National park is rounded off by the funicular ride to the foot of the summit - unique views over the clouds and almost all the Canary Islands. The biggest treasure of the Teno Mountains is the former "Piratendorf" Masca, which is situated at a picturesque altitude in the middle of a gorge on a mountain crest. In Masca you can enjoy the dramatic and spectacular landscape.
